CAREER OBJECTIVE

An ambitious Computer Science undergraduate at Independent University, Bangladesh, seeking a SOD(Student On Duty) to support faculty in delivering quality education. Eager to utilize my strong communication skills, time management abilities, and passion for technology to assist in class preparation, guide fellow students, and foster an engaging learning environment. Committed to continuous growth and contributing to the academic success of the department.

EDUCATION

BSc in Computer Science
Independent University, Bangladesh

2023-2025

CGPA- 3.28

Higher Secondary Certificate

Sarishabari Govt. Pilot Uchcha Madhyamik Balika Bidyalaya (School & College)

2020-2021

GPA- 4.42

Secondary School Certificate

Sarishabari Salema Khatun Girl's High School

2018-2019

GPA- 4.44

SKILLS

TECHNICAL SKILLS:

- Programming: Python , Java
- Proficient in Microsoft Word, Excel and PowerPoint

INTERPERSONAL SKILLS:

- Time Management
- Public Speaking
- Critical Thinking
- Continuous Learning
- Effective Writing
- Communication Skill
- Languages: English, Bangla, Chinese(basic)

SELECTED PROJECTS

SIMULATION UBER APP

- Collaboratively developed a simulated Uber-like application as part of a group project for the Object-Oriented Programming course using Java. Took on dual roles as Marketing Executive and System Administrator, leading the system interface design and backend implementation. Emphasized efficient system logic, intuitive user flow, and robust administrative functionalities.

LINE FOLLOWING ROBOT

- Designed a line-following robot using Arduino Nano, L298N motor driver, and a 5-array IR sensor for precise path tracking and obstacle detection. Implemented digital logic for smooth motor control using N20 motors. Powered the system with a Li-Po battery and buck converter for stable voltage. Documented the design, implementation, and testing phases.

MINI BANKING APP

- Designed a line-following robot using Arduino Nano, L298N motor driver, and a 5-array IR sensor for precise path tracking and obstacle detection. Implemented digital logic for smooth motor control using N20 motors. Powered the system with a Li-Po battery and buck converter for stable voltage. Documented the design, implementation, and testing phases.

EXTRACURRICULAR ACTIVITIES

- An active member of the IUB ACM Student Branch Chapter and a regular participant in competitive programming competitions.

ACADEMIC WORKSHOP

- Workshop on Scientific Paper Writing organized by IEEE Computer Society, IUB Student Branch Chapter [October 17, 2024]
- Workshop on Cyber Security organized by JUKTI- The official club of CSE, IUB[October 10, 2024]
- Workshop on App Development organized by JUKTI- The official club of CSE, IUB[October 24, 2024]
- Workshop on Web Development with Python, Django, and React organized by JUKTI- The official club of CSE, IUB[November 21, 2024]
- Workshop on Industrial Programming organized by IEEE Computer Society, IUB Student Branch Chapter [November 21, 2024]
- Workshop on Digital Marketing organized by JUKTI- The official club of CSE, IUB[November 28, 2024]
- Workshop on Career Through Programming organized by IEEE Computer Society, IUB Student Branch Chapter in collaboration with Programming Hero [December 7, 2024]

REFERENCE

A K M MAHBUBUR RAHMAN, PHD

ASSOCIATE PROFESSOR

Department of Computer Science & Engineering.

Independent University, Bangladesh.
